

**SIDMA S.A. successfully completed the issuance of a bond loan of €1,5 million, in order to refinance the existing syndicated loan of €4,6 million.**

The loan is five-year long and is divided into common non-convertible bonds, which were issued by the company and assumed by the banks involved. Specifically, fifty one thousand and five hundred anonymous common bonds, with nominal value of one thousand (1000) euros, each with quittance completion in 2011, were issued.

The organization of the loan was undertaken by EFG Telesis Finance in association with the National Bank of Greece S.A., while the following banks participated in the loan in order of participation: EFG Eurobank Ergasias S.A., National Bank of Greece S.A., Piraeus Bank S.A., HSBC Bank PLC, ALPHA Bank S.A. and Geniki Bank S.A.

The excess amount from the issuance of the loan will be used to cover working capital needs that were, until now, financed by short-term lending.
